

ING Run For Something Better School Awards Grant Program!

Moscow Middle School Students have logged their miles, kept a running journal and goal setting log and they will run the remaining 1.2 miles of their Half-Marathon in true “fun-run” style. This event promotes running as part of a healthy, active lifestyle and an important part of cardiovascular fitness. Last year over 100 community members came to support students. Let’s break that record this year!
